

This 4ft LED wrap around fixture is the ideal multipurpose light for both front and back of the house applications. The prismatic lens prevents glare while filtering an even flow of light. Essential in restrooms, stocking areas, hallways, or anywhere a surface mounted enclosed fixture is needed. Knockouts are available for both end caps and the driver cover for surface mounting applications and accessories such as optional occupancy sensors. The UV treated prismatic poly-carbonate lens is shatterproof and lightweight. Additional spaces available for emergency driver applications.
